

INDEX TO VOLUME XXV

INDEX OF SUBJECTS

Abortion —Some signs, findings, and interpretations of criminal (<i>Hall</i> : July)	788*
Acid-fast intranuclear inclusion bodies in lead poisoning. (<i>Wachstein</i> : July)	826*
Adrenal —The effects of deprivation of water on the . . . glands of rats. (<i>Nichols</i> : March)	301
Adrenal gland —Cardiac hypertrophy in young rats following renal ligature: rate of development and effect of simultaneous adrenal- ectomy. (<i>Rather</i> : July)	767*
—Nonencapsulated adrenal cortical tissue in the peri-adrenal fat. (<i>Denber</i> : July).	681
Air embolism as a complication of lumbar pneumo-encephalography. Report of two cases with necropsy findings. (<i>Coleman, Schenken,</i> <i>and Abbott</i> : July)	787*
Alcohol —Simplified method of . . . estimation in non-distilled vital fluids. (<i>Hall</i> : July)	818*
Allergic granulomatosis. (<i>Churg and Strauss</i> : July)	817*
Alumina —The morphology of bauxite-fume pneumoconiosis. (<i>Wyatt</i> <i>and Riddell</i> : May)	447
American Association of Pathologists and Bacteriologists —Proceedings of the (July)	763
Aminopterin —The effects of a folic acid antagonist (. . .) on albino rats. (<i>Woll and Oleson</i> : July)	800*
Amyloid —Tissue changes closely resembling amyloidosis in scorbutic guinea-pigs. (<i>Pirani and Bly</i> : July)	822*
Amyloidosis —Primary . . . , with report of six cases. (<i>Dahlin</i> : January)	105
Anaphylaxis —Antigen tracer studies and histologic observations in anaphylactic shock in the guinea-pig (Part II). (<i>Dixon and Warren</i> : July)	812*
Anterior chamber —Experience with unsuccessful attempts to use the anterior chambers of eyes of heterologous species to grow malignant neoplasms as a source of antigen. (<i>Ricker</i> : July)	823*
Antigen tracer studies and histologic observations in anaphylactic shock in the guinea-pig (Part II). (<i>Dixon and Warren</i> : July)	812*
Aorta —The lipid content of the . . . in relation to the nutritional state and other conditions. (<i>Cox and Miller</i> : July)	768*
Arteries —The reaction produced in the pulmonary . . . by emboli of cotton fibers. (<i>Von Glahn and Hall</i> : July)	575
Arteriosclerotic lesions in pyridoxine-deficient monkeys. (<i>Rinehart and</i> <i>Greenberg</i> : July, 767*; May)	481
Arteritis —Bilateral mammary (<i>Waugh</i> : July)	827*
Artery —The fate of blood injected into the arterial wall. (<i>Wartman and</i> <i>Laißly</i> : May)	383
Asphyxia —Histopathologic distinctions between actual and alleged asphyxial death during infancy. (<i>Werne and Garrow</i> : July)	787*
Atomic bomb casualties —Pathology of (<i>Liebow, Warren, and</i> <i>DeCoursey</i> : September)	853
Basement membrane of the fetal placental villus and its relation to toxic and pathologic obstetrical states. (<i>Hall</i> : July)	819*
Bauxite —The morphology of . . . -fume pneumoconiosis. (<i>Wyatt and</i> <i>Riddell</i> : May)	447
Benign lymphoid polyps of the rectum. (<i>Helwig and Hansen</i> : July)	793*
Benign lymphoma of rectum. (<i>Heller and Lewis</i> : July)	794*
Beryllium —Bone changes observed following intravenous injections of (<i>Cloudman, Vining, Barkulis, and Nickson</i> : July)	810*
Bilateral mammary arteritis. (<i>Waugh</i> : July)	827*

* Abstract of paper presented at the meeting of the American Association of Pathologists and Bacteriologists held at the Harvard Medical School, Boston, April 15 and 16, 1949.

- Bile duct**—Diverticula in the terminal portion of the common (Sterling: March) 325
- Birds**—Virus hepatitis of captive wild (Ratcliffe and Lucké: July) 774*
- Blood**—Cells of the megakaryocyte series in pernicious anemia: in particular, the effect of specific therapy. (Epstein: March) 239
- Blood cysts on the heart valves of infants.** (Boyd: July) 757
- Blunt force injuries of the heart.** (Helpern: July) 783*
- Bone**—Destruction of cartilage cells in the newborn rat by brief refrigeration, with consequent skeletal deformities. (Scow: January) 143
- Experimental infarction of . . . and marrow. (Bragdon, Foster, and Sosman: July) 709
- Bone changes observed following intravenous injections of beryllium.** (Cloudman, Vining, Barkulis, and Nickson: July) 810*
- Bone marrow**—Cells of the megakaryocyte series in pernicious anemia: in particular, the effect of specific therapy. (Epstein: March) 239
- Brain**—Encephalitis in diphtheria. (Dolgopol and Katz: July) 818*
- Subdural hemorrhages following ruptures of arteries and veins on surface of cerebrum. (Vance: July) 785*
- The topographic pathology of the cerebral lesions of acute poliomyelitis in man. I. The medulla oblongata. (Peers and Lillie: July) 725
- The transplantation of experimentally induced . . . tumors. (Zimmerman and Maier: July) 801*
- Breast**—See Mammary Gland.
- Bronchial arteries**—Enlargement of the . . . , and their anastomoses with the pulmonary arteries in bronchiectasis. (Liebow, Hales, and Lindskog: March) 211
- Bronchiectasis**—Enlargement of the bronchial arteries, and their anastomoses with the pulmonary arteries in . . . (Liebow, Hales, and Lindskog: March) 211
- Brown fat tumor**—Hibernoma, a special fatty tumor. Report of a case. (Brines and Johnson: May) 467
- Brucella**—Isolation of . . . from apparently healthy individuals. (McVay, Guthrie, Michelson, and Sprunt: July) 776*
- Canine toxoplasmosis.** (Langham and Sholl: May) 569
- Carbon tetrachloride**—Pathology of acute . . . toxicity. (Moon: July) 788*
- Carcinoma**—A study of the histogenesis of endocervical metaplasia and intra-epithelial . . . (Howard, Erickson, and Stoddard: July) 794*
- Combined liver cell and bile duct . . . (Allen and Lisa: July) 647
- Complement fixation in animal neoplasia. III. Comparison of the Kidd technic with a more sensitive method for testing the sera from rabbits bearing the Brown-Pearce . . . (Lippincott, Ellerbrook, Thornton, and Stowell: July) 820*
- Epidermoid . . . of the skin of the upper extremities. (Johnson and Ackerman: July) 791*
- Genesis of . . . of the endometrium. (Hertig and Sommers: July) 797*
- Histochemical studies on alkaline and acid phosphatase in renal . . . of the frog. (Young, Breedis, and Lucké: July) 798*
- Histopathogenesis of . . . of the forestomach of mice induced by intramural injection of 20-methylcholanthrene. (Firminger and Stewart: July) 815*
- The histogenesis of clear cell papillary . . . of the skin. (Liu: January) 93
- Cardiac cirrhosis.** (McCartney: July) 769*
- Cardiac hypertrophy in young rats following renal ligation:** rate of development and effect of simultaneous adrenalectomy. (Rather: July) 767*
- Carditis in poliomyelitis.** An anatomic study of thirty-five cases and review of the literature. (Ludden and Edwards: May) 357
- Cartilage**—Destruction of . . . cells in the newborn rat by brief refrigeration, with consequent skeletal deformities. (Scow: January) 143

- Cells of the megakaryocyte series in pernicious anemia:** in particular, the effect of specific therapy. (*Epslein*: March) 239
- Cellular changes in systemic lupus erythematosus.** (*Klemperer, Gueft, and Lee*: July) 778*
- Central nervous system**—The exfoliative cytologic diagnosis of . . . lesions. (*Platt*: July) 823*
- Cervix uteri**—A study of the histogenesis of endocervical metaplasia and intra-epithelial carcinoma. (*Howard, Erickson, and Stoddard*: July) 794*
- Changes of effused blood outside and inside of the body:** their significance for legal medicine. (*Strassmann*: July) 790*
- Chicken**—Lymphoid tissue and its relation to so-called normal lymphoid foci and to lymphomatosis. I. Qualitative study of lymphoid areas in the pancreas of chickens. (*Lucas*: November) 1197
- Cholesterol**—Crystalline ester . . . and renal adult cortical tumors. (*Leary*: July) 816*
- Renal excretion of (*Leary*: July) 816*
- Chronic pancreatitis and lithiasis.** I. A clinicopathologic study of 62 cases of chronic pancreatitis. (*Edmondson, Bullock, and Mehl*: November) 1227
- Cirrhosis**—See Liver.
- Codeine poisoning:** fatal case from accidental overdose. (*Cornell*: July) 817*
- Cold**—Destruction of cartilage cells in the newborn rat by brief refrigeration, with consequent skeletal deformities. (*Scow*: January) 143
- Collagen**—Factors influencing . . . content in experimental cirrhosis. (*Morrione*: March) 273
- Color reactions with sera of patients with malignant neoplasms.** (*Weiss*: July) 827*
- Combined liver cell and bile duct carcinoma.** (*Allen and Lisa*: July) 647
- Complement fixation in animal neoplasia.** III. Comparison of the Kidd technic with a more sensitive method for testing the sera from rabbits bearing the Brown-Pearce carcinoma. (*Lippincott, Ellersbrook, Thornton, and Stowell*: July) 820*
- Cotton fibers**—The reaction produced in the pulmonary arteries by emboli of (*Von Glahn and Hall*: July) 575
- Crystalline ester cholesterol and renal adult cortical tumors.** (*Leary*: July) 816*
- Cutaneous leiomyoma of goldfish.** I. Morphology and growth in tissue culture. (*Schlumberger*: March) 287
- Cystadenoma**—Histopathology of ovarian pseudomucinous (*Reagan*: July) 689
- Destruction of cartilage cells in the newborn rat by brief refrigeration,** with consequent skeletal deformities. (*Scow*: January) 143
- Developmental disturbances**—Effect of diet during pregnancy upon the incidence of congenital hereditary diaphragmatic hernia in the rat. Failure to produce cystic fibrosis of the pancreas by maternal vitamin A deficiency. (*Andersen*: January) 163
- Diabetes**—Post-partum endometrial hyperplasia in diabetic patients treated with stilbestrol and proluton. (*Meissner and Sommers*: July) 778*
- Diaphragm**—Effect of diet during pregnancy upon the incidence of congenital hereditary diaphragmatic hernia in the rat. Failure to produce cystic fibrosis of the pancreas by maternal vitamin A deficiency. (*Andersen*: January) 163
- Dietary factors**—Effect of diet during pregnancy upon the incidence of congenital hereditary diaphragmatic hernia in the rat. Failure to produce cystic fibrosis of the pancreas by maternal vitamin A deficiency. (*Andersen*: January) 163

- Dimethyl-amino-azobenzene**—Histochemical and microchemical studies of rat liver after low protein diet and *p*- (Stowell, Lee, and Tsuboi: July) 799*
- Diphtheria**—Encephalitis in (Dolgopol and Katz: July) 818*
- Diverticula in the terminal portion of the common bile duct.** (Sterling: March) 325
- Dog**—Canine toxoplasmosis. (Langham and Sholl: May) 569
- Neoplastic diseases of dogs. I. Neoplasms of melanin-forming cells. (Mulligan: March) 339
- The effect of normal saline solution, Ringer's lactate solution, and distilled water on the lungs of dogs and rabbits. (Miller, Hamilton, Wise, and Wenner: March) 253
- Effect of diet during pregnancy upon the incidence of congenital hereditary diaphragmatic hernia in the rat.** Failure to produce cystic fibrosis of the pancreas by maternal vitamin A deficiency. (Anderson: January) 143
- Effect of normal saline solution, Ringer's lactate solution, and distilled water on the lungs of dogs and rabbits.** (Miller, Hamilton, Wise, and Wenner: March) 253
- Effects of a folic acid antagonist (aminopterin) on albino rats.** (Woll and Oleson: July) 800*
- Effects of deprivation of water on the adrenal glands of rats.** (Nichols: March) 301
- Elastic tissue**—Studies on the structure of . . . with the electron microscope. (Gross: July) 805*
- Electricity**—A study of the electric resistance offered by animal and human tissue. (Fisher and Moritz: July) 783*
- Electron microscope**—Studies on the structure of elastic tissue with the (Gross: July) 805*
- Embolism**—Air . . . as a complication of lumbar pneumo-encephalography. Report of two cases with necropsy findings. (Coleman, Schenken, and Abbott: July) 787*
- The reaction produced in the pulmonary arteries by emboli of cotton fibers. (Von Glahn and Hall: July) 575
- Encephalitis in diphtheria.** (Dolgopol and Katz: July) 818*
- Encephalography**—Air embolism as a complication of lumbar pneumo- Report of two cases with necropsy findings. (Coleman, Schenken, and Abbott: July) 787*
- Endocarditis**—Old . . . in the hearts of pigs resembling human (Saphir and Lowenthal: July) 824*
- Endometrium**—Genesis of carcinoma of the (Hertig and Sommers: July) 797*
- Post-partum endometrial hyperplasia in diabetic patients treated with stilbestrol and proluton. (Meissner and Sommers: July) 778*
- Enlargement of the bronchial arteries, and their anastomoses with the pulmonary arteries in bronchiectasis.** (Liebow, Hales, and Lindskog: March) 211
- Eosinophilic granuloma**—Gastric submucosal granuloma with eosinophilic infiltration. (Vanek: May) 397
- Epidermoid carcinoma of the skin of the upper extremities.** (Johnson and Ackerman: July) 791*
- Evaluation of the Adamstone-Taylor frozen section technic for use in routine surgical pathology.** (Taft: July) 824*
- Exfoliative cytologic diagnosis of central nervous system lesions.** (Platt: July) 823*
- Experience with unsuccessful attempts to use the anterior chambers of eyes of heterologous species to grow malignant neoplasms as a source of antigen.** (Ricker: July) 823*
- Experimental infarction of bone and marrow.** (Bragdon, Foster, and Sosman: July) 709

- Experimental total midzonal hepatic necrosis.** (*Black-Schaffer and Johnson*: July) 774*
- Factors affecting the distribution of tumor metastases.** (*Eisenberg*: July) 802*
- Factors influencing collagen content in experimental cirrhosis.** (*Morrione*: March) 273
- Fat embolism**—The pathogenesis of experimental (*Harman and Ragatz*: July) 809*
- Fate of blood injected into the arterial wall.** (*Wartman and Loipply*: May) 383
- Fever therapy**—The pathology of hyperpyrexia. Observations at autopsy of 17 cases of (*Gore and Isaacson*: September) . . . 1029
- Fibrinoid**—Histochemical studies on the pathogenesis of (*Altshuler and Angevine*: September) 1061
- Fibroma**—Intramural . . . of the heart. (*Kulka*: May) 549
- Foreign body reaction**—Tissue responses to physical forces. IV. The fibrogenic potential of foreign particles in tissue. (*Evans, Zeit, and Kuzma*: July) 806*
- Forensic medicine**—Pathology in (*Moritz*: July) 779*
- Frog**—Histochemical studies on alkaline and acid phosphatase in renal carcinoma of the (*Young, Breedis, and Lucké*: July) 798*
- Frozen section technic**—An evaluation of the Adamstone-Taylor . . . for use in routine surgical pathology. (*Taft*: July) 824*
- Gastric submucosal granuloma with eosinophilic infiltration.** (*Vaněk*: May) 397
- Gastritis**—The topography of chronic . . . in otherwise normal stomachs. (*Hebbel*: January) 125
- Gaucher's disease**—Histochemical studies in (*Morrison and Hack*: July) 597
- Genesis of carcinoma of the endometrium.** (*Hertig and Sommers*: July) . . 797*
- Glomerular ischemia in lower nephron nephrosis and in the hepatorenal syndrome.** (*French*: July) 770*
- Goldfish**—Cutaneous leiomyoma of I. Morphology and growth in tissue culture. (*Schlumberger*: March) 287
- Granuloma**—Pure granulomatous nocardiosis: a new fungus disease distinguished by intracellular parasitism. A description of a new disease in man due to a hitherto undescribed organism, *Nocardia intracellularis*, n. sp., including a study of the biologic and pathogenic properties of this species. (*Cullino and McCabe*: January) 1
- Guinea-pig**—Antigen tracer studies and histologic observations in anaphylactic shock in the . . . (Part II). (*Dixon and Warren*: July) . . 812*
- Methylcholanthrene-induced tumors in guinea-pigs with transient periods of vitamin C deficiency. (*Russell and Ortega*: July) 824*
- Tissue changes closely resembling amyloidosis in scorbutic guinea-pigs. (*Pirani and Bly*: July) 822*
- Heart**—See also Endocarditis; Myocarditis.
- Blood cysts on the . . . valves of infants. (*Boyd*: July) 757
- Blunt force injuries of the (*Helpern*: July) 783*
- Cardiac cirrhosis. (*McCartney*: July) 769*
- Cardiac hypertrophy in young rats following renal ligature: rate of development and effect of simultaneous adrenalectomy. (*Rather*: July) 767*
- Carditis in poliomyelitis. An anatomic study of thirty-five cases and review of the literature. (*Ludden and Edwards*: May) 357
- Infarction of the muscle bundles of the atria and ventricles of the (*Wartman and Souders*: July) 826*
- Intramural fibroma of the (*Kulka*: May) 549
- Spontaneous cardiac lesions in mice. Their bearing on attempts to produce experimental carditis. (*Gray*: November) 1215

- Thymic hypertrophy and auricular compression. (*Carr*: July) . . . 785*
- Heat**—Tissue reactions to subcutaneous implants of thermally denatured porcine skin. (*Ford*: July) . . . 814*
- Hemangiopericytoma**—Malignant . . . of popliteal space. (*Fienberg*: July) . . . 818*
- Hemoglobinuria**—Necrosis of the liver in experimental fatal hemoglobinuric nephrosis. (*Lalich and Angevine*: July) . . . 820*
- The pathogenesis of experimental hemoglobinuric nephrosis in rabbits, with special reference to the late manifestations. (*Lalich*: March) . . . 187
- Hemoglobinuria (blackwater fever)** in monkeys. A consideration of the disease in man. (*Rigdon*: March) . . . 195
- Hemorrhage**—Changes of effused blood outside and inside of the body: their significance for legal medicine. (*Strassmann*: July) . . . 790*
- Subdural hemorrhages following ruptures of arteries and veins on surface of cerebrum. (*Vance*: July) . . . 785*
- The fate of blood injected into the arterial wall. (*Wartman and Laipply*: May) . . . 383
- Hepatitis**—The incidence of post-transfusion serum . . . (*McGraw, Strumia, and Burns*: July) . . . 821*
- Hepatorenal syndrome**—Glomerular ischemia in lower nephron nephrosis and in the . . . (*French*: July) . . . 770*
- Hernia**—Effect of diet during pregnancy upon the incidence of congenital hereditary diaphragmatic . . . in the rat. Failure to produce cystic fibrosis of the pancreas by maternal vitamin A deficiency. (*Andersen*: January) . . . 163
- Hibernoma, a special fatty tumor**. Report of a case. (*Brines and Johnson*: May) . . . 467
- Hilus cell tumor**—The morphology, androgenic function, hyperplasia, and tumors of the human ovarian hilus cells. (*Sternberg*: May) . . . 493
- Histochemical and microchemical studies of rat liver after low protein diet and p-dimethyl-amino-azobenzene**. (*Stowell, Lee, and Tsuboi*: July) . . . 799*
- Histochemical studies in Gaucher's disease**. (*Morrison and Hack*: July) . . . 597
- Histochemical studies on alkaline and acid phosphatase in renal carcinoma of the frog**. (*Young, Breedis, and Lucké*: July) . . . 798*
- Histochemical studies on the pathogenesis of fibrinoid**. (*Allshuler and Angevine*: September) . . . 1061
- Histogenesis of clear cell papillary carcinoma of the skin**. (*Liu*: January) . . . 93
- Histologic observations on the supradiaphragmatic portion of the vagus nerves**. (*Tedeschi and Gaston*: July) . . . 825*
- Histopathogenesis of carcinoma of the forestomach of mice induced by intramural injection of 20-methylcholanthrene**. (*Firminger and Stewart*: July) . . . 815*
- Histopathologic distinctions between actual and alleged asphyxial death during infancy**. (*Werne and Garrow*: July) . . . 787*
- Histopathologic observations in cases of Hodgkin's disease treated with nitrogen mustard**. (*Cornell and Blauw*: March) . . . 233
- Histopathology of ovarian pseudomucinous cystadenoma**. (*Reagan*: July) . . . 689
- Historadiography**—A study of chemical elements in histologic sections by means of x-ray absorption. (*Marinelli, Ferlazzo, Fitzgerald, and Foote*: July) . . . 811*
- Hodgkin's disease**—Histopathologic observations in cases of . . . treated with nitrogen mustard. (*Cornell and Blauw*: March) . . . 233
- Hodgkin's disease associated with meningo-encephalitis**. (*Rottino and Hoffman*: July) . . . 804*
- Horse serum**—Lesions of hypersensitivity induced in rabbits by massive injections of . . . (*More and McLean*: May) . . . 413

- Hyperglobulinemia**—Plasma cell hyperplasia and . . . in trichinosis. The duration of larviposition. (*Carter*: March) . . . 309
- Hyperpyrexia**—The pathology of . . . Observations at autopsy in 17 cases of fever therapy. (*Gore and Isaacson*: September) . . . 1029
- Hypersensitivity**—Lesions of . . . induced in rabbits by massive injections of horse serum. (*More and McLean*: May) . . . 413
- Hypersplenism in malignant disease**—a new concept. (*Hunter*: July) . . . 804*
- Hypertension**—Cardiac hypertrophy in young rats following renal ligature: rate of development and effect of simultaneous adrenalectomy. (*Rather*: July) . . . 767*
- Icterus**—Microchemical variation of alkaline phosphatase activity of liver in obstructive and hepatocellular jaundice. (*Kritzler and Beaubien*: September) . . . 1079
- Incidence of post-transfusion serum hepatitis**. (*McGraw, Strumia, and Burns*: July) . . . 821*
- Inclusion bodies**—Acid-fast intranuclear . . . in lead poisoning. (*Wachstein*: July) . . . 826*
- Infarction**—Experimental . . . of bone and marrow. (*Bragdon, Foster, and Sosman*: July) . . . 709
- Infarction of the muscle bundles of the atria and ventricles of the heart**. (*Wartman and Souders*: July) . . . 826*
- Influence of phosphorus upon the absorption of iron**. (*Kinney, Hegsted, and Fitch*: July) . . . 815*
- Intestine**—Mucormycosis of the large bowel. (*Moore, Anderson, and Everett*: May) . . . 559
- Pathogenesis of ulcerative colitis. (*Warren and Sommers*: July) . . . 657
- Intra-epithelial carcinoma**—A study of the histogenesis of endocervical metaplasia and . . . (*Howard, Erickson, and Stoddard*: July) . . . 794*
- Intradurellary tumors of the spinal cord and filum terminale**. (*Kernohan*: July) . . . 790*
- Intramural fibroma of the heart**. (*Kulka*: May) . . . 549
- Involvement of the stomach in malignant lymphoma**. (*Wahl and Hill*: July) . . . 792*
- Iron**—The influence of phosphorus upon the absorption of . . . (*Kinney, Hegsted, and Fitch*: July) . . . 815*
- Irradiation**—Pathology of atomic bomb casualties. (*Liebow, Warren, and DeCoursey*: September) . . . 853
- The response of tissue to total body . . . (*Tullis*: September) . . . 829
- Ischemia**—The recovery of skeletal muscle fibers from acute . . . as determined by histologic and chemical methods. (*Harman and Gwinn*: July) . . . 741
- Isolation of brucella** from apparently healthy individuals. (*McVay, Guthrie, Michelson, and Sprunt*: July) . . . 776*
- Isolation of mumps virus at autopsy**. (*Weller and Craig*: September) . . . 1105
- Juvenile tuberculous infection**, possibly of avian type. (*Feldman, Hulchinson, Schwarting, and Karlson*: November) . . . 1183
- Kidney**—Cardiac hypertrophy in young rats following renal ligature: rate of development and effect of simultaneous adrenalectomy. (*Rather*: July) . . . 767*
- Crystalline ester cholesterol and renal adult cortical tumors. (*Leary*: July) . . . 816*
- Glomerular ischemia in lower nephron nephrosis and in the hepatorenal syndrome. (*French*: July) . . . 770*
- Histochemical studies on alkaline and acid phosphatase in renal carcinoma of the frog. (*Young, Breedis, and Lucké*: July) . . . 798*
- “Lower nephron nephrosis” a misnomer for the “crush” . . . (*McManus and Rulledge*: July) . . . 771*
- Renal excretion of cholesterol. (*Leary*: July) . . . 816*

- The pathogenesis of experimental hemoglobinuric nephrosis in rabbits, with special reference to the late manifestations. (*Lalich: March*). 187
- Lead poisoning**—Acid-fast intranuclear inclusion bodies in (*Wachstein: July*). 826*
- Leiomyoma**—Cutaneous . . . of goldfish. I. Morphology and growth in tissue culture. (*Schlumberger: March*). 287
- Lesions of hypersensitivity induced in rabbits by massive injections of horse serum.** (*More and McLean: May*). 413
- Letterer-Siwe's disease**—Nonlipid reticulo-endotheliosis: A report of three cases. (*Schafer: January*). 49
- Leukemia**—Variants of chronic granulocytic . . . (*Butcher, Meek, and Custer: July*). 771*
- Lipid content of the aorta** in relation to the nutritional state and other conditions. (*Cox and Miller: July*). 768*
- Lithiasis**—Chronic pancreatitis and I. A clinicopathologic study of 62 cases of chronic pancreatitis. (*Edmondson, Bullock, and Mehl: November*). 1227
- Liver**—Cardiac cirrhosis. (*McCartney: July*). 769*
- Combined . . . cell and bile duct carcinoma. (*Allen and Lisa: July*). 647
- Experimental total midzonal hepatic necrosis. (*Black-Schaffer and Johnson: July*). 774*
- Factors influencing collagen content in experimental cirrhosis. (*Morrione: March*). 273
- Histochemical and microchemical studies of rat . . . after low protein diet and *p*-dimethyl-amino-azobenzene. (*Stowell, Lee, and Tsuboi: July*). 799*
- Microchemical variation of alkaline phosphatase activity of . . . in obstructive and hepatocellular jaundice. (*Kritzler and Beaubien: September*). 1079
- Necrosis of the . . . in experimental fatal hemoglobinuric nephrosis. (*Lalich and Angevine: July*). 820*
- The incidence of post-transfusion serum hepatitis. (*McGraw, Strumia, and Burns: July*). 821*
- Virus hepatitis of captive wild birds. (*Ratcliffe and Lucké: July*). 774*
- Lower nephron nephrosis** a misnomer for the "crush" kidney. (*McManus and Rutledge: July*). 771*
- Glomerular ischemia in . . . and in the hepatorenal syndrome. (*French: July*). 770*
- Lung**—Enlargement of the bronchial arteries, and their anastomoses with the pulmonary arteries in bronchiectasis. (*Liebow, Hales, and Lindskog: March*). 211
- Pulmonary lesions induced in Wistar rats by urethane. (*Mostofi and Larsen: July*). 807*
- Quantitative studies on the collateral circulation of the . . . after ligation of the pulmonary artery. (*Bloomer, Harrison, Liebow, Hales, and Lindskog: July*). 808*
- Squamous cell metaplasia and the diagnosis of . . . cancer. (*Haythorn: July*). 819*
- The effect of normal saline solution, Ringer's lactate solution, and distilled water on the lungs of dogs and rabbits. (*Miller, Hamilton, Wise, and Wenner: March*). 253
- The morphology of bauxite-fume pneumoconiosis. (*Wyatt and Riddell: May*). 447
- The reaction produced in the pulmonary arteries by emboli of cotton fibers. (*Von Glahn and Hall: July*). 575
- Lupus erythematosus**—Cellular changes in systemic (*Klemperer, Gueft, and Lee: July*). 778*

- Lymphoblastoma**—Hypersplenism in malignant disease—a new concept. (*Hunter*: July) 804*
- Lymphoid tissue and its relation to so-called normal lymphoid foci and to lymphomatosis.** I. Qualitative study of lymphoid areas in the pancreas of chickens. (*Lucas*: November) 1197
- Lymphoma**—Benign lymphoid polyps of the rectum. (*Helwig and Hansen*: July) 793*
- Benign . . . of rectum. (*Heller and Lewis*: July) 794*
- Involvement of the stomach in malignant . . . (*Wahl and Hill*: July) 792*
- Lymphomatosis**—Lymphoid tissue and its relation to so-called normal lymphoid foci and to . . . I. Qualitative study of lymphoid areas in the pancreas of chickens. (*Lucas*: November) 1197
- Malaria**—Hemoglobinuria (blackwater fever) in monkeys. A consideration of the disease in man. (*Rigdon*: March) 195
- Malignant hemangiopericytoma** of popliteal space. (*Fienberg*: July) 818*
- Mammary gland**—Bilateral mammary arteritis. (*Waugh*: July) 827*
- Mast cells**—A transplantable splenic tumor rich in . . . Observations on . . . in varied neoplasms. (*Bali and Furth*: July) 605
- Medicolegal aspects of radiation injury.** (*Warren*: July) 783*
- Megakaryocyte**—Cells of the . . . series in pernicious anemia: in particular, the effect of specific therapy. (*Epstein*: March) 239
- Melanoblastoma**—Neoplastic diseases of dogs. I. Neoplasms of melanin-forming cells. (*Mulligan*: March) 339
- Melanoma**—The natural history of the pigmented nevus; factors of age and anatomic location. (*Lund and Stobbe*: November) 1117
- Meningo-encephalitis**—Hodgkin's disease associated with . . . (*Rottino and Hoffman*: July) 804*
- Metaplasia**—A study of the histogenesis of endocervical . . . and intra-epithelial carcinoma. (*Howard, Erickson, and Stoddard*: July) 794*
- Squamous cell . . . and the diagnosis of lung cancer. (*Haythorn*: July) 819*
- Metastasis**—Factors affecting the distribution of tumor metastases. (*Eisenberg*: July) 802*
- Methylcholanthrene**—Histopathogenesis of carcinoma of the forestomach of mice induced by intramural injection of 20- . . . (*Firminger and Stewart*: July) 815*
- Methylcholanthrene-induced tumors in guinea-pigs with transient periods of vitamin C deficiency.** (*Russell and Ortega*: July) 824*
- Microchemical variation of alkaline phosphatase activity of liver in obstructive and hepatocellular jaundice.** (*Kritsler and Beaubien*: September) 1079
- Monkey**—Arteriosclerotic lesions in pyridoxine-deficient monkeys. (*Rinehart and Greenberg*: July, 767*; May) 481
- Hemoglobinuria (blackwater fever) in monkeys. A consideration of the disease in man. (*Rigdon*: March) 195
- Morphology, androgenic function, hyperplasia, and tumors of the human ovarian hilus cells.** (*Sternberg*: May) 493
- Morphology of bauxite-fume pneumoconiosis.** (*Wyatt and Riddell*: May) 447
- Mouse**—Histopathogenesis of carcinoma of the forestomach of mice induced by intramural injection of 20-methylcholanthrene. (*Firminger and Stewart*: July) 815*
- Spontaneous cardiac lesions in mice. Their bearing on attempts to produce experimental carditis. (*Gray*: November) 1215
- Mucormycosis of the large bowel.** (*Moore, Anderson, and Everett*: May) 559
- Mumps**—The isolation of . . . virus at autopsy. (*Weller and Craig*: September) 1105
- Muscle**—The recovery of skeletal . . . fibers from acute ischemia as determined by histologic and chemical methods. (*Harman and Gwinn*: July) 741

- Mycosis**—Mucormycosis of the large bowel. (*Moore, Anderson, and Everett*: May) 559
- Myoblastoma**. (*Murphy, Dockerty, and Broders*: November). 1157
- Myocarditis in vitamin E-deficient rabbits**. (*Bragdon and Levine*: March). 265
- Natural history of the pigmented nevus**; factors of age and anatomic location. (*Lund and Stobbe*: November) 1117
- Nature of the double-contoured and stratified intracellular bodies in sarcoidosis** (Boeck-Schaumann). (*Teilum*: January) 85
- Necrosis**—Experimental total midzonal hepatic (*Black-Schaffer and Johnson*: July) 774*
- Necrosis of the liver in experimental fatal hemoglobinuric nephrosis**. (*Lalich and Angevine*: July) 820*
- Neoplasm**—See also under anatomical location concerned.
- Color reactions with sera of patients with malignant neoplasms. (*Weiss*: July) 827*
- Experience with unsuccessful attempts to use the anterior chambers of eyes of heterologous species to grow malignant neoplasms as a source of antigen. (*Ricker*: July) 823*
- Factors affecting the distribution of tumor metastases. (*Eisenberg*: July) 802*
- Methylcholanthrene-induced tumors in guinea-pigs with transient periods of vitamin C deficiency. (*Russell and Ortega*: July) 824*
- The exfoliative cytologic diagnosis of central nervous system lesions. (*Platt*: July) 823*
- Neoplastic diseases of dogs**. I. Neoplasms of melanin-forming cells. (*Mulligan*: March) 339
- Nephrosis**—Necrosis of the liver in experimental fatal hemoglobinuric (*Lalich and Angevine*: July) 820*
- The pathogenesis of experimental hemoglobinuric . . . in rabbits, with special reference to the late manifestations. (*Lalich*: March) 187
- Nevus**—The natural history of the pigmented . . . ; factors of age and anatomic location. (*Lund and Stobbe*: November) 1117
- Nitrogen mustard**—Histopathologic observations in cases of Hodgkin's disease treated with (*Cornell and Blauw*: March) 233
- Nocardiosis**—Pure granulomatous . . . : a new fungus disease distinguished by intracellular parasitism. A description of a new disease in man due to a hitherto undescribed organism, *Nocardia intracellularis*, n. sp., including a study of the biologic and pathogenic properties of this species. (*Cutlino and McCabe*: January) I
- Nonencapsulated adrenal cortical tissue in the peri-adrenal fat**. (*Denber*: July) 681
- Nonlipid reticulo-endotheliosis**: Letterer-Siwe's disease. A report of three cases. (*Schafer*: January) 49
- Old endocarditis in the hearts of pigs** resembling human endocarditis. (*Saphir and Lowenthal*: July) 824*
- Oncocytoma**—Oxyphilic granular cell adenoma of the parotid gland (. . .). Report of five cases and study of oxyphilic granular cells (oncocytes) in normal parotid glands. (*Meza-Chávez*: May) 523
- Ovary**—Histopathology of ovarian pseudomucinous cystadenoma. (*Reagan*: July) 689
- The morphology, androgenic function, hyperplasia, and tumors of the human ovarian hilus cells. (*Sternberg*: May) 493
- Oxyphilic granular cell adenoma of the parotid gland** (oncocytoma). Report of five cases and study of oxyphilic granular cells (oncocytes) in normal parotid glands. (*Meza-Chávez*: May) 523
- Pancreas**—Chronic pancreatitis and lithiasis. I. A clinicopathologic study of 62 cases of chronic pancreatitis. (*Edmondson, Bullock, and Mehl*: November) 1227

- Lymphoid tissue and its relation to so-called normal lymphoid foci and to lymphomatosis. I. Qualitative study of lymphoid areas in the . . . of chickens. (*Lucas*: November) 1197
- Parotid gland**—Oxyphilic granular cell adenoma of the . . . (oncocyoma). Report of five cases and study of oxyphilic granular cells (oncocytes) in normal parotid glands. (*Meza-Chávez*: May) 523
- Sebaceous glands in normal and neoplastic parotid glands. Possible significance of sebaceous glands in respect to the origin of tumors of the salivary glands. (*Meza-Chávez*: July) 627
- Pathogenesis of experimental fat embolism.** (*Harman and Ragatz*: July) 809*
- Pathogenesis of experimental hemoglobinuric nephrosis** in rabbits, with special reference to the late manifestations. (*Lalich*: March) 187
- Pathogenesis of ulcerative colitis.** (*Warren and Sommers*: July) 657
- Pathology in forensic medicine.** (*Moritz*: July) 779*
- Pathology of acute carbon tetrachloride toxicity.** (*Moon*: July) 788*
- Pathology of atomic bomb casualties.** (*Liebow, Warren, and DeCoursey*: September) 853
- Pathology of hyperpyrexia.** Observations at autopsy in 17 cases of fever therapy. (*Gore and Isaacson*: September) 1029
- Pathology of yellow fever** in 1948 outbreak of sylvan form in Panama. (*Ellion and Herrera*: July) 772*
- Pernicious anemia**—Cells of the megakaryocyte series in . . . in particular, the effect of specific therapy. (*Epstein*: March) 239
- Phosphatase**—Histochemical studies on alkaline and acid . . . in renal carcinoma of the frog. (*Young, Breedis, and Lucké*: July) 798*
- Microchemical variation of alkaline . . . activity of liver in obstructive and hepatocellular jaundice. (*Kritzler and Beaubien*: September) 1079
- Phosphorus**—The influence of . . . upon the absorption of iron. (*Kinney, Hegsted, and Fitch*: July) 815*
- Pig**—Old endocarditis in the hearts of pigs resembling human endocarditis. (*Saphir and Lowenthal*: July) 824*
- Tissue reactions to subcutaneous implants of thermally denatured porcine skin. (*Ford*: July) 814*
- Placenta**—The basement membrane of the fetal placental villus and its relation to toxic and pathologic obstetrical states. (*Hall*: July) 819*
- Plasma cell hyperplasia and hyperglobulinemia in trichinosis.** The duration of larviposition. (*Carter*: March) 309
- Plasmocytoma of the thyroid.** (*Hazard and Schildecker*: July) 819*
- Pneumoconiosis**—The morphology of bauxite-fume (*Wyatt and Riddell*: May) 447
- Poliomyelitis**—Carditis in An anatomic study of thirty-five cases and review of the literature. (*Ludden and Edwards*: May) 357
- The topographic pathology of the cerebral lesions of acute . . . in man. I. The medulla oblongata. (*Peers and Lillie*: July) 725
- Post-mortem biochemical changes.** (*Jetter, McLean, and Nutter*: July) 789*
- Post-partum endometrial hyperplasia in diabetic patients** treated with stilbestrol and proluton. (*Meissner and Sommers*: July) 778*
- Primary amyloidosis**, with report of six cases. (*Dahlin*: January) 105
- Proceedings**—See American Association of Pathologists and Bacteriologists.
- Proluton**—Post-partum endometrial hyperplasia in diabetic patients treated with stilbestrol and (*Meissner and Sommers*: July) 778*
- Pulmonary artery**—Quantitative studies on the collateral circulation of the lung after ligation of the (*Bloomer, Harrison, Liebow, Hales, and Lindskog*: July) 808*
- Pulmonary lesions induced in Wistar rats by urethane.** (*Mostofi and Larsen*: July) 807*

- Pure granulomatous nocardiosis:** a new fungus disease distinguished by intracellular parasitism. A description of a new disease in man due to a hitherto undescribed organism, *Nocardia intracellularis*, n. sp., including a study of the biologic and pathogenic properties of this species. (*Cuttino and McCabe*: January) I
- Pyridoxine**—Arteriosclerotic lesions in . . . -deficient monkeys. (*Rinehart and Greenberg*: July, 767*; May) 481
- Quantitative studies on the collateral circulation of the lung** after ligation of the pulmonary artery. (*Bloomer, Harrison, Liebow, Hales, and Lindskog*: July) 808*
- Rabbit**—Complement fixation in animal neoplasia. III. Comparison of the Kidd technic with a more sensitive method for testing the sera from rabbits bearing the Brown-Pearce carcinoma. (*Lippincott, Ellerbrook, Thornton, and Stowell*: July) 820*
- Lesions of hypersensitivity induced in rabbits by massive injections of horse serum. (*More and McLean*: May) 413
- Myocarditis in vitamin E-deficient rabbits. (*Bragdon and Levine*: March) 265
- The effect of normal saline solution, Ringer's lactate solution, and distilled water on the lungs of dogs and rabbits. (*Miller, Hamilton, Wise, and Wenner*: March) 253
- The pathogenesis of experimental hemoglobinuric nephrosis in rabbits, with special reference to the late manifestations. (*Lalich*: March) 187
- Radiation injury**—The medicolegal aspects of radiation injury. (*Warren*: July) 783*
- Rat**—Cardiac hypertrophy in young rats following renal ligation: rate of development and effect of simultaneous adrenalectomy. (*Rather*: July) 767*
- Destruction of cartilage cells in the newborn . . . by brief refrigeration, with consequent skeletal deformities. (*Scow*: January) 143
- Effect of diet during pregnancy upon the incidence of congenital hereditary diaphragmatic hernia in the . . . Failure to produce cystic fibrosis of the pancreas by maternal vitamin A deficiency. (*Andersen*: January) 163
- Histochemical and microchemical studies of . . . liver after low protein diet and *p*-dimethyl-amino-azobenzene. (*Stowell, Lee, and Tsuboi*: July) 799*
- Pulmonary lesions induced in Wistar rats by urethane. (*Mostofi and Larsen*: July) 807*
- The effects of a folic acid antagonist (aminopterin) on albino rats. (*Woll and Oleson*: July) 800*
- The effects of deprivation of water on the adrenal glands of rats. (*Nichols*: March) 301
- Reaction produced in the pulmonary arteries by emboli of cotton fibers.** (*Von Glahn and Hall*: July) 575
- Recovery of skeletal muscle fibers from acute ischemia** as determined by histologic and chemical methods. (*Harman and Gwinn*: July) 741
- Rectum**—Benign lymphoid polyps of the (*Helwig and Hansen*: July) 793*
- Benign lymphoma of (*Heller and Lewis*: July) 794*
- Refrigeration**—Destruction of cartilage cells in the newborn rat by brief . . . , with consequent skeletal deformities. (*Scow*: January) 143
- Renal excretion of cholesterol.** (*Leary*: July) 816*
- Resistance**—A study of the electric . . . offered by animal and human tissue. (*Fisher and Moritz*: July) 783*
- Response of tissue to total body irradiation.** (*Tullis*: September) 829
- Reticulo-endotheliosis**—Nonlipid . . . Letterer-Siwe's disease. A report of three cases. (*Schafer*: January) 49

- Sarcoidosis**—The nature of the double-contoured and stratified intracellular bodies in . . . (Boeck-Schaumann). (*Teilum*: January) 85
- Schaumann bodies**—The nature of the double-contoured and stratified intracellular bodies in sarcoidosis (Boeck-Schaumann). (*Teilum*: January) 85
- Scorbutus**—Tissue changes closely resembling amyloidosis in scorbutic guinea-pigs. (*Pirani and Bly*: July) 822*
- Sebaceous glands in normal and neoplastic parotid glands.** Possible significance of sebaceous glands in respect to the origin of tumors of the salivary glands. (*Mesa-Chavez*: July) 627
- Serial biopsy of the testis:** observations in endocrine dysfunction and sterility. (*Sniffen*: July) 813*
- Silicosis**—Tissue responses to physical forces. IV. The fibrogenic potential of foreign particles in tissue. (*Evans, Zeit, and Kuzma*: July) 806*
- Simplified method of alcohol estimation** in non-distilled vital fluids. (*Hall*: July) 818*
- Skin**—Epidermoid carcinoma of the . . . of the upper extremities. (*Johnson and Ackerman*: July) 791*
- The histogenesis of clear cell papillary carcinoma of the . . . (*Liu*: January) 93
- Some signs, findings, and interpretations of criminal abortion.** (*Hall*: July) 788*
- Spinal cord**—Intramedullary tumors of the . . . and filum terminale. (*Kernohan*: July) 790*
- Spleen**—A transplantable splenic tumor rich in mast cells. Observations on mast cells in varied neoplasms. (*Bali and Furth*: July) 605
- Hypersplenism in malignant disease—a new concept. (*Hunter*: July) 804*
- Spontaneous cardiac lesions in mice.** Their bearing on attempts to produce experimental carditis. (*Gray*: November) 1215
- Squamous cell metaplasia and the diagnosis of lung cancer.** (*Haythorn*: July) 819*
- Stilbestrol**—Post-partum endometrial hyperplasia in diabetic patients treated with . . . and proluton. (*Meissner and Sommers*: July) 778*
- Stomach**—Gastric submucosal granuloma with eosinophilic infiltration. (*Vanek*: May) 397
- Histopathogenesis of carcinoma of the forestomach of mice induced by intramural injection of 20-methylcholanthrene. (*Firminger and Stewart*: July) 815*
- Involvement of the . . . in malignant lymphoma. (*Wahl and Hill*: July) 792*
- The topography of chronic gastritis in otherwise normal stomachs. (*Hebbel*: January) 125
- Studies on the structure of elastic tissue with the electron microscope.** (*Gross*: July) 805*
- Study of the electric resistance offered by animal and human tissue.** (*Fisher and Moritz*: July) 783*
- Study of the histogenesis of endocervical metaplasia and intra-epithelial carcinoma.** (*Howard, Erickson, and Stoddard*: July) 794*
- Subdural hemorrhages following ruptures of arteries and veins on surface of cerebrum.** (*Vance*: July) 785*
- Testis**—Serial biopsy of the . . . : observations in endocrine dysfunction and sterility. (*Sniffen*: July) 813*
- Thymic hypertrophy and auricular compression.** (*Carr*: July) 785*
- Thyroid**—Plasmocytoma of the . . . (*Hazard and Schildecker*: July) 819*
- Tissue changes closely resembling amyloidosis in scorbutic guinea-pigs.** (*Pirani and Bly*: July) 822*
- Tissue reactions to subcutaneous implants of thermally denatured porcine skin.** (*Ford*: July) 814*

- Tissue response to physical forces.** IV. The fibrogenic potential of foreign particles in tissue. (*Evans, Zeit, and Kuzma*: July) . . . 806*
- Topographic pathology of the cerebral lesions of acute poliomyelitis in man.** I. The medulla oblongata. (*Peers and Lillie*: July) . . . 725
- Topography of chronic gastritis in otherwise normal stomachs.** (*Hebbel*: January) . . . 125
- Toxoplasmosis—Canine** . . . (*Langham and Sholl*: May) . . . 569
- Transplantable splenic tumor rich in mast cells.** Observations on mast cells in varied neoplasms. (*Bali and Furth*: July) . . . 605
- Transplantation—Experience with unsuccessful attempts to use the anterior chambers of eyes of heterologous species to grow malignant neoplasms as a source of antigen.** (*Ricker*: July) . . . 823*
- Transplantation of experimentally induced brain tumors.** (*Zimmerman and Maier*: July) . . . 801*
- Trichinosis—Plasma cell hyperplasia and hyperglobulinemia in** . . . The duration of larviposition. (*Carter*: March) . . . 309
- Tuberculosis, avian—Juvenile tuberculous infection, possibly of avian type.** (*Feldman, Hutchinson, Schwarting, and Karlson*: November) 1183
- Ulcerative colitis—Pathogenesis of** . . . (*Warren and Sommers*: July) 657
- Urethane—Pulmonary lesions induced in Wistar rats by** . . . (*Mostofi and Larsen*: July) . . . 807*
- Vagus nerve—Histologic observations on the supradiaphragmatic portion of the vagus nerves.** (*Tedeschi and Gaston*: July) . . . 825*
- Variants of chronic granulocytic leukemia.** (*Butcher, Meek, and Custer*: July) . . . 771*
- Virus—The isolation of mumps** . . . at autopsy. (*Weller and Craig*: September) . . . 1105
- Virus hepatitis of captive wild birds.** (*Ratcliffe and Lucké*: July) . . . 774*
- Vitamin A—Effect of diet during pregnancy upon the incidence of congenital hereditary diaphragmatic hernia in the rat. Failure to produce cystic fibrosis of the pancreas by maternal** . . . deficiency. (*Andersen*: January) . . . 163
- Vitamin C—Methylcholanthrene-induced tumors in guinea-pigs with transient periods of** . . . deficiency. (*Russell and Ortega*: July) . . . 824*
- Vitamin E—Myocarditis in** . . . -deficient rabbits. (*Bragdon and Levine*: March) . . . 265
- Water—The effects of deprivation of** . . . on the adrenal glands of rats. (*Nichols*: March) . . . 301
- Yellow fever—Pathology of** . . . in 1948 outbreak of sylvan form in Panama. (*Elton and Herrera*: July) . . . 772*

INDEX OF AUTHORS
